

Máster Universitario en “Ciencia y Tecnología Nuclear”

Programa de Doctorado en “Energía Sostenible, Nuclear y Renovable”

SEMINARIOS AVANZADOS:

“Needs for the well-being and challenges faced by the population living in contaminated territories in Fukushima”

Lecturer: Dr. Masaharu Tsubokura

Dr. Masaharu Tsubokura is a Specially Appointed Professor at the Department of Public Health in Fukushima Medical University School of Medicine.

After the Fukushima nuclear power plant accident in 2011, he worked with local municipalities in Fukushima, and played an important role in the establishment of the internal radiation exposure screening programs for the local residents.

He is also a member of the Committee on Radiation Protection and Public Health in Minamisoma and Soma Cities, and has actively sought to provide radiation seminars to the public, to respond to public worries about the effects of radiation exposure on health.
